

Scheme of water level control in storage tank

Hlídání hladiny tří hladin v akumulační jímce

Z1
Z2
Z3

minimální hladina
chod čerpadla filtrace
dopouštění vody

Minimum level
Operation of filtration pump
Water drain

For probe connection use conductor CYA 1,5 mm

Water level – turning on the filtration pump

Water level – turning off the water refill

Water level – turning off the filtration pump

Water level – turning on the water refill

2x Emergency water level in a tank

Reference probes (must be bellow water level all the time)
